Second—We congratialte the country

that the election of the past year gives

such abundant promise of the over

Third—We insist that the tariff refor needs.

The Aw insist that the tariff reform in the paramount question before the American people, and demontree the American people, and demontree the American Congress It has need to cottrageous measure of taxation ever proposed in the American Congress It has increased the burdens already too great upon the mecossaries of hits, and reduced taxes on laxaries that are most able to bear them. It has made existence harder for every farmer and wage-earner in the land in order that the profits of monopolies and trasks may be inverted and "blees not open a market for a single bursted of wheat or a single barrel of pork." We contrast with it the policy of Grover Cleveland and John G. Carlide, which would discourage nancessary expendievenind and John G. Caribee, which build disconrage innecessary expendi-re, provide all needed revenue, cheap-what we buy and open the markets the world to the products of our farms of factories.

Seventh—We commend to the people of the State the manly, patriotic and up-right course of the Chief Executive whom the Democratic party gave to the Commonwealth four years ago, and inclose his administration as consistent with the principles on which he was nominated and elected.
